

INTERWEAVE  
CONNECTING CARE

# Interweave Portal

## Visibility of Data coverage and history

# Available data – Portal feature

The Available Data feature shows what data each provider is making available to the Shared Care Record. It is also able to display the date when the provider organisation started to make it's data available, along with any related information.

| Provider   | AllergyIntolerance | Appointment | Condition | DiagnosticReport | DocumentReference | Encounter | Epi |
|--|--------------------|-------------|-----------|------------------|-------------------|-----------|-----|
| Calderdale and Huddersfield NHS Foundation Trust | ×                  | ×           | ×         | ×                | ✓                 | ✓         |     |

Live  
Description: Encounter  
History Start Date: Not provided

# Available data – provider dependency

**Note: it is the responsibility of each provider to supply this information, and they do this in the Interweave Console**

e.g. this could be used to tell the Portal user that this organisation is providing Encounters from 07/02/2023 but Inpatient Encounters only

## Resources

| Resource   | Access | History Start | Coverage Notes             |
|------------|--------|---------------|----------------------------|
| Encounters | Public | 07/02/2023    | Inpatients Encounters only |

**Thank you!**
