Timeline and Feed

Timeline - horizontal

The data retrieved for a person can be viewed on a timeline, using the Timeline tab

This allows you to set an appropriate timeframe, see clusters of events, and drill down into the detail

The screenshot displays the INTERWEAVE patient record for Mattha Azzopardi. The interface includes a top navigation bar with search and filter options, a left-hand menu with various patient data categories, and a main content area with a horizontal timeline. The timeline shows events from 2019 to 2024, with a current view for 2021. A detailed view of an encounter on 08 Jun 2021 is shown, including status, participant, type, service type, and location.
